Comments: _____

Ovation® is not contracted with all insurance companies; payment in full is due at the time of service.

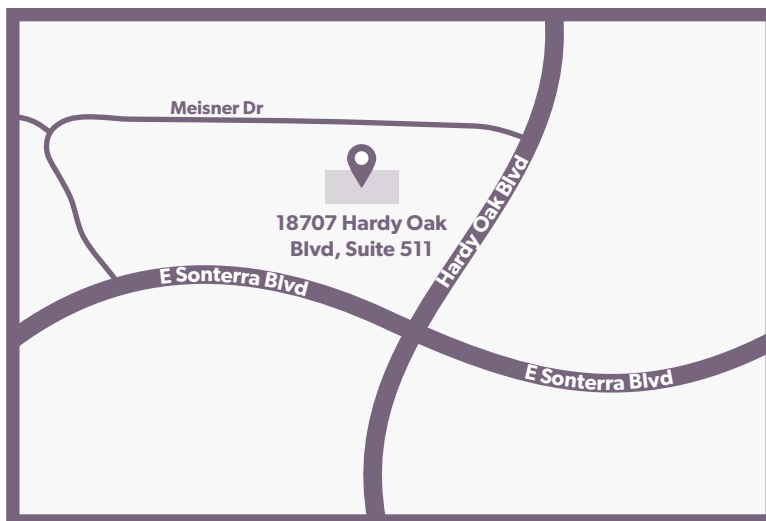

Instructions:

- Please call the laboratory at 210.858.3360 to schedule your appointment in San Antonio, or 210.807.7196 to schedule your appointment in New Braunfels. **Without an appointment, specimens will not be tested.**
- **The male patient must be present at Ovation for the first appointment.**
- Specimens may be collected at home or at Ovation. For home collection, specimens must be collected in a sterile container, which can be provided by Ovation.
- It is recommended that you have an ejaculation 2-5 days prior to your visit.
- The specimen must be provided by masturbation only.
- Use only lubricant provided by Ovation or your physician (no saliva or other lubricant).
- The specimen container must be appropriately labeled using the label provided by Ovation.
- If you are not collecting at Ovation please make sure to keep the specimen container at room temperature for transportation to Ovation.
- The specimen must be delivered to Ovation within one hour after collection.
- A valid photo ID is required. Specimen accepted only from patient or partner.

Ovation Fertility San Antonio

18707 Hardy Oak Blvd, Suite 511

Sperm Cryopreservation and Sperm Banking

Sperm cryopreservation is a procedure to freeze and preserve sperm cells for future use in IUI or IVF cycles. Sperm cryopreservation allows patients to have sperm available for their IUI or IVF procedure, in the event a male partner is unable to provide a sperm sample on a particular day.

Sperm cryopreservation is recommended if your partner:

- Travels often or lives out of town
- Has unpredictable or limited availability
- Has difficulty or anxiety about producing/collecting a semen sample

Appointments are required for all sperm freezes.

Please call the laboratory at 210.858.3360 to schedule your sperm cryopreservation appointment in San Antonio as soon as possible. Appointment times are limited, so please call in advance to get your partner scheduled.

- The male patient must be present at Ovation for the first appointment
- Andrology order form (request from your nurse)
- Completion of required Ovation documents
- Infectious disease screening (IDS) results within the past 12 months

****IDS results are required prior to freezing****

Please contact your nurse to obtain the andrology order form and confirm if your infectious disease screening results are current. You may need labs drawn again if your IDS results are more than 12 months old.
